

New Head of Sales

Düsseldorf, 16. November 2023 - Tim Van den Brande was appointed Managing Director of aream Institutional Sales Management UG on November 10, 2023. "We are delighted to have gained Tim Van den Brande, a very experienced managing director in the sale of real assets," says Markus W. Voigt, CEO of the aream Group.

Tim Van den Brande was most recently Managing Director at investment manager GEG German Real Estate and Head of Institutional Capital Raising at Munich-based asset manager KGAL Capital. Prior to that, Van den Brande held leading sales positions at various investment banks such as JPMorgan, Merrill Lynch and Kleinwort Benson.

aream, an investment and asset manager for institutional investors with a focus on sustainable infrastructure, covers the entire value chain for renewable energy investments. With a transaction volume of more than 2.4 billion euros, aream is one of the leading asset managers in this market, with its own portfolio of assets generating around 40 million euros worth of green electricity per year. "Investments in solar and wind parks promise stable returns that are attractive for institutional investors," says Markus W. Voigt. "Tim Van den Brande will promote aream among institutional investors with his many years of experience, his excellent contacts and, last but not least, his multilingualism."

Tim Van den Brande: "aream has excellent growth areas in the very attractive market environment for renewable energies in Europe in the areas of fund and asset management, project development and operations management. I am therefore delighted to become part of this great team. As an owner-managed company, aream has an outstanding corporate culture that brings together many things: many years of European experience, a very experienced management team, some of whom have been working together for a very long time, and many interesting and highly qualified new joiners."

About the aream Group

The aream Group, founded in 2005, is an investment and asset manager for institutional investors and industrial customers with a focus on sustainable infrastructure in the renewable energy sector. With the three areas of fund and asset management, project development and operation management, aream covers the entire value chain for renewable energy investments. With a transaction volume of more than 2.4 billion euros, aream is one of the leading asset managers in this market. With its own plant portfolio, green electricity is sold for around 40 million euros per year. Since 2008, aream has been producing more than a billion kWh of green electricity. As part of the growth strategy, 2.5 GW of solar and wind parks are to be realized or acquired over the next few years. Due to its own project development alone, aream currently has a pipeline of over 1,000 MWp with a potential of a further 1,400 MWp. Further information: www.aream.de.
