

Christine Brockwell new Chief Investment Officer

Düsseldorf, 13 January 2025 - Christine Brockwell joined aream Group SE as Chief Investment Officer on 1 January 2025. This will further drive the company's growth.

Brockwell comes from Aquila Clean Energy in Hamburg, where she was Chief Product Officer and a member of the Executive Board. Prior to this, Brockwell worked as Managing Director at Global Capital Finance in Frankfurt and New York, where she was responsible for financial advisory mandates for investments in the renewable energy sector. At the Green Investment Bank in London, Brockwell previously supported the UK's transition to a greener economy as Managing Director and Head of Offshore Wind.

"With the appointment of Christine Brockwell as Chief Investment Officer, we are recognising the growth of the Group", says Markus W. Voigt, founder and principal owner of the Group. "This will allow us to continue to grow and develop successfully. We are delighted to have her on board." Brockwell also describes the renewable energy market as "more complex and full of opportunities than at any time in the last 20 years" and therefore sees enormous potential for the aream Group, which covers the entire value chain.

About the aream Group

aream Group, founded in 2005, is an investment and asset manager for institutional investors and industrial clients with a focus on sustainable infrastructure in the renewable energy sector. With its three divisions Fund and Asset Management, Project Development and Operation Management, aream covers the entire value chain for renewable energy investments. With a transaction volume of more than 2.5 billion euros, aream is one of the leading asset managers in this market, and its own portfolio of plants generates around 40 million euros worth of green electricity per year. Since 2008, aream has produced more than one billion kWh of green electricity. As part of the growth strategy, several solar and wind parks are to be realized or acquired in the coming years. Through its own project development alone, aream currently has a long development pipeline with great potential. Further information: www.aream.de.
